# Henley Royal Regatta

One of the highlights of the summer season – the chance to see our Olympic stars and enjoy a day of lavish hospitality and elegance on the banks of the River Thames.

This quintessentially English event, established in 1839, is an important social occasion and always provides a welcome haven of relaxation and tranquillity.

The Courtyard Enclosure sits within the Remenham Farm facility, on the Berkshire bank of the river Thames (the racing side). It is close to the start line, near the picturesque Temple Island and provides superb views of the rowing from its private riverside gardens.

It has its own moorings, where river trips can be taken during the day.
